Integrate Bristol	<p>As well as supporting young people with their learning, we run projects that help them develop their skills so that they can participate in society and feel a part of the community they have joined. We aim to give young people a voice, a platform for expressing their views and ideas.</p> <p>Much of our work involves supporting those in the community who are bravely trying to eradicate FGM, a humiliating and harmful practice, through various educational and creative projects. We also push for changes to the current policies surrounding FGM in the UK.</p>	View the website
